PROFESSIONAL SUMMARY

I am an IT professional focused on Modern Enterprise IT Support, Workplace Administration, and Cloud Infrastructure, with hands-on experience supporting enterprise IT environments. I have experience managing identity and device lifecycles across 16,000+ users. Microsoft Entra ID for identity and access management, Microsoft Intune for endpoint and compliance management, and Microsoft 365 Admin Center for user administration, license allocation, and SaaS management. I bring practical expertise in technical troubleshooting, user support, identity administration, endpoint management, and cloud-based IT operations.

TECHNICAL SKILLS

Operating Systems & Endpoint:

Management: Windows, Linux, Workstation Deployment, Peripherals & AV Configuration.

Directory Services & Cloud Administration:

Active Directory (Account Management, GPO, Security Groups), Microsoft 365 Admin Center (Exchange, Teams, OneDrive), Microsoft Azure (User Monitoring, Access Compliance).

Network & Systems Administration:

TCP/IP, LAN/WAN Setup & Cabling, DHCP Scopes & DNS Records, VPN Client Configuration, Wi-Fi Access Points, Switch/Router Configuration Basics.

ITSM & Support Tools:

SysAid Helpdesk Ticketing, ITIL v4 Incident Management, Remote Support Tools, SLA Compliance, SA-SAMS.

Modern IT & Automation:

AI Prompt Engineering, Workflow Process Automation, Python Scripting, Google AI Tools.

PROFESSIONAL EXPERIENCE

IT Support Specialist Trainee

CAPACITI | Cape Town, Western Cape

Aug 2026 – Present

- Develop and deploy an AI-powered IT Service Management (ITSM) and Business Operations System (BOS) prototype with built-in Role-Based Access Control (RBAC) to enforce strict user permission tiers, ticket visibility controls, and administrative privileges.
- Engineer AI-driven workflows within the ITSM platform to automate inbound ticket categorization, priority triage, and resolution response drafting.

- Provision local machine access, manage permission groups, and configure standardized user desktop profiles using on-premises Active Directory for cohort participants.
- Administer Microsoft 365 licensing suites, configure multi-factor authentication (MFA), and manage SaaS application access permissions via the Microsoft 365 Admin Center.

IT Support Technician Intern

University of Venda | Thohoyandou, Limpopo

Jul 2025 – Jun 2026

- Served as the primary frontline support for 16,000+ students, lecturers, and staff, handling walk-ins, telephone, and remote sessions via Microsoft Teams.
- Logged, tracked, and resolved daily service requests and incidents in SysAid, achieving a 96% SLA resolution.
- Created and provisioned local user accounts in Active Directory, performed password resets, unlocked accounts, joined workstations to the domain.
- SaaS access via Microsoft 365 Admin Center and Microsoft Entra ID, allocating M365 licensing suites, managing security groups, and troubleshooting MFA resets.
- Enrolled endpoints into Microsoft Intune, verifying device compliance baselines and general health status.
- Performed daily desktop and peripheral diagnostics, repairing desktop hardware, maintained computer laboratories and network printers.
- Troubleshoot routine network connectivity issues, including Ethernet wall patching, Wi-Fi authentication, VPN client connections, and DHCP/DNS.

ICT Administrator Assistant

Denga Tshivhase Secondary School | Thohoyandou, Limpopo

Jun 2025 – Jul 2025

- Maintained institutional computer labs, handled software updates, and resolved staff workstation hardware failures.
- Managed data capture, database backups, and record validation using SA-SAMS.
